## Perfektes Zentrieren

Blockelement mit einem zentrierten Item
nur horizontal

CSS

```css
.box {
  display: block;
  width: ...;
  height: ...;

}

.box>div {
  margin-left: auto;
  margin-right: auto;
  width: ...;
  height: ...;
}
```

HTML

```html
<div class="box">
  <div><!-- horizontal zentriert --></div>
</div>
```

Flexbox mit 1 perfekt zentriertem Item
horizontal & vertikal

W3Schools: *https://www.w3schools.com/css/tryit.asp?filename=trycss3_flexbox_perfect_center*

CSS

```css
.flex-container {
  display: flex;
  justify-content: center;
  align-items: center;
  width: ...;
  height: ...;
}

.flex-container>div {
  width: ...;
  height: ...;
}
```

HTML

```html
<div class="flex-container">
  <div><!-- perfekt zentriert --></div>
</div>
```
